

# Move up to **more capable** 3D printing.

## 5 Reasons to Upgrade to the Fortus 450mc™

### Faster Results

Up your production rate and improve your ROI with a 22% average throughput increase vs. legacy printers.

### Wider Application Scope

More materials open new applications not possible with older printers. You get 16 unique polymers, several in multiple colors, plus virtually unlimited material options with an OpenAM™ material license.

### Higher Yield Rates

With a 95% uptime and 15% lower print failure rate compared to legacy printers, you'll achieve higher yields using one of the most dependable FDM® printers on the market.

### Lower Labor

The larger dual-bay material capacity provides a nearly 3X increase in uninterrupted print times, reducing time and labor spent to reload material.

### Higher Part Quality

Increase printed part quality through uniform oven temperatures and better motion control vs. older printers. The result is 95% consistency in part accuracy, part-to-part and printer-to-printer.

For a limited time,

# take 20% off

the cost of a new Fortus 450mc  
when you trade in your legacy 3D  
printer.

Now is the time to elevate your 3D printing capability at an incredible price. Upgrade to the reliability and productivity of the Fortus 450mc.

Valid for POs received and systems shipped between 01-Dec, 2024 and 31-Dec, 2024
